

## ASSET MANAGEMENT SOLUTIONS

*Extract the maximum value of your assets for all their life cycle*

### Omexom teams work on every step of energy's assets life

We are a leading global contractor, from design to operation, inc. financing, building & maintenance with a strong innovative capacity!

#### How does it work?

- ▶ Digital twins, GIS integration from design to works or maintenance follow-up
- ▶ Digital substation (IEC 61850, MPLS, IoT, global monitoring, fault detection, ...)
- ▶ Line inspection, vegetation management with drones, Artificial intelligence
- ▶ Integration with TSO/DSO' asset management tools

**Digitalization**

*Digital Substation*

#### The benefits

- ▶ Achieve the highest performance at the lowest maintenance cost
- ▶ Improve system efficiency, reliability and resiliency
- ▶ Reduce asset downtime
- ▶ Better visibility into cybersecurity vulnerabilities

**Line Inspection**

**Predictive Maintenance**
